Zagreb, February 2 nd 1998.

Dear Sir/Mrss

Kino club "Zagreb" is the oldest nonprofessional film club in Croatia, and in 1998. it celebrates 70 years of existence. Our main goals are production of nonprofessional movies and video films including video art. We also provide different education programs for our members and others interested in film and video. We mainly use S-VHS and Beta video systems, and for some more serious projects 16mm b/w or color film (The production costs in Croatia are extremely high so the average annual film production is 2/3 short films).
In 1998. we plan to buy new lights and tripods with necessary accessories and that is the reason why we ask for your kind assistance and information. (There are no official dealers for light supports in Croatia exept "HAMA" and "UNOMAT" witch sell products only for home video making).
As our production is noncomercial, (we are sponsored by the State) the budget is small so we must make compromises between costs and quality. With one light set we must cover all our needs in education programs, ENG filming, studio filming, and small outdoors film sets. Therefore we kindly ask you for your experts advises in purchasing semi-professional light supports, with specifications and export prices.
To make your job easier we enclude some specifications (Sachtler program range 1995/96)
Portable lighting "Reporter" mod: Tungsten battery lights Reporter 100H or 250H.
Tungsten-mains powered Reporter 650HS/1000H.
Daylight mains and battery powered Reporter 270DI.
Luminaires for Studios and sets, mod: Sachtler Director 650H or 1000H.
We also need information about tripods and light filters.

We would like to thank you for your time and information. Our address is Kino klub "Zagreb", Trg hrvatskih velikana 14, 10000 Zagreb, Croatia.
Sincerely Yours,

Alan Bahorić, president
